Hope and Homes for Children is a UK based charity that gives hope to the poorest children in the world – those who are orphaned, abandoned or vulnerable – by enabling them to grow up within the love of a family and the security of a home, so that they can fulfil their potential. Hope and Homes for Children works with children, their families and communities across Central and Eastern Europe and Africa. They move children out of state institutions into family-based care, help keep together families at risk of breakdown due to the pressures of poverty, disease or conflict and work to prevent child abandonment.
