

Hope & Homes for Children

What your support
can achieve

Make a difference

Here are a few examples of how your fundraising efforts will help change children's lives forever...

£12 could bring a smile to the faces of two children in institutions across Central and Eastern Europe by buying them their first ever toy. It's hard to believe that many children growing up in institutions have never had a toy of their own.

£25 could enable us to send two children to school by helping to pay their school fees or provide the necessary uniform, books and equipment to put them on the road to a brighter future.

£75 could fund a vocational training course for a child or young adult in hairdressing, carpentry, mechanics or computing in our programmes across Central and Eastern Europe and Africa.

£100 could enable us to train a volunteer to provide day-to-day support for child-headed households in Africa. Our volunteer will be on hand to help with homework, teach practical skills such as as cookery or agriculture and provide the simple things we take for granted like encouragement and advice.

£500 could cover the costs of training and equipping two sets of foster parents, as without a doubt there is no better place for a child to grow up than in a caring family.

£1500 could enable us to build a simple home for a vulnerable family. Sadly, many families in Africa find themselves homeless as a result of poverty or the death of a parent. Without a home it is much harder for a family to stay together.

No matter what you raise your support will transform lives!
